

Bayside Open Space Strategy

Update 2

The preparation of the Bayside Open Space Strategy is well under way with a series of surveys, consultation workshops and focus groups taking place within the municipality. The consultation is essential for the development of the strategy as it will inform and guide future decisions regarding open space across the municipality for the next 10 years.

A big thank you for your contributions so far!

Firstly, we would like to thank all those who have contributed to surveys and community forums. Your attendance and contributions have provided us with vital information that is necessary to develop the Open Space Strategy. We really appreciate the time you have taken and the range of ideas that have been expressed through the forums and the surveys.

Please go to the project website (www.bayside.vic.gov.au/openspace) and click on the project website link to have a look at the range of community contributions and ideas that were raised during the community forums.

It's not too late to have your say!

Remember, there are a range of ways for you to participate in the planning process. These include:

- Completing a household survey (if you did not receive one, you can download a copy from www.bayside.vic.gov.au/openspace or complete a survey on line). **PLEASE NOTE: the closing date for the household survey has been extended to 31 July 2010.**
- You may be approached by a project team member in your community about open space. Spend 10 minutes of your time to share your thoughts and ideas.
- Contacting us via telephone, email or the project website to share your ideas and comments.

We need your help

In addition to making your contributions, we encourage you to spread the word to your family, friends and work colleagues. The more people involved in the consultation process, the more robust the information informing the final Open Space Strategy will be. We want to ensure a variety of views are represented to meet the needs of a diverse community.

Stay informed

Regular updates are being made on the project website. Simply visit www.bayside.vic.gov.au/openspace to access more information, ask questions and read reports as they become available.

Should you have any questions or wish to discuss any aspect of the project, please contact Hang Do from CPG Australia on 9993 7888. CPG Australia is a consultancy assisting Council in the preparation of the Open Space Strategy.
